Account Number: DB-0378-S

Dear Mr. Harris:

This is in response to your letter received October 24, 2008, requesting alteration of the maximum allowable emission rates table (MAERT) of the above-referenced permit. We understand that you wish to lower the emissions of volatile organic compounds (VOCs) from emission points Line 1 Cooling Section and Line 3 Cooling Section. We also understand that the testing you have performed on these emission points has shown that the emissions of VOCs are lower than those listed in your permit MAERT.

As indicated in Title 30 Texas Administrative Code § 116.116(c) [30 TAC § 116.116(c)], and based on our review, Permit Number 7711A is altered. Enclosed is the altered MAERT to replace the one currently attached to your permit. Please attach it to your permit.

As of July 1, 2008, all analytical data generated by a mobile or stationary laboratory in support of compliance with air permits must be obtained from a NELAC (National Environmental Laboratory Accreditation Conference) accredited laboratory under the Texas Laboratory Accreditation Program or meet one of several exemptions. Specific information concerning which laboratories must be accredited and which are exempt may be found in 30 TAC §§ 25.4 and 25.6.

For additional information regarding the laboratory accreditation program and a list of accredited laboratories and their fields of accreditation, please see the following website:
